PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate currently pursuing a B.Tech degree at Vignan Foundation for Science, Research and Technology (VFSTR), with a foundation in programming, data structures and algorithms, object-oriented programming, databases, and web development. Hands-on experience with C, Java, Python, JavaScript, React.js, Node.js, Express.js, and MongoDB through academic and personal projects. Seeking internship and entry-level opportunities in software development and related CSE roles.

EDUCATION

Vignan Foundation for Science, Research and Technology (VFSTR) — B.Tech in Computer Science and Engineering
2024 – 2028 | 3rd Year, 5th Semester | CGPA: [7.8 / 10]

XII-S.P.M.College,Udantipuri, Nalanda. 72.2%

X- Sadar Alam Memorial Secondary school Bihar Sharif, Nalanda 78.4%

TECHNICAL SKILLS

Programming Languages: C, Java, Python, JavaScript
Web & Frontend: HTML, CSS, JavaScript, React.js
Backend & Database: Node.js, Express.js, MongoDB
Core CS: Data Structures and Algorithms, OOP, DBMS, Computer Networks, Operating Systems, COA
Tools: Git, GitHub, Visual Studio Code
Other: MERN Stack, Computer Vision, Image Processing, OpenCV, NumPy

PROJECTS

Student Attendance Management System | React.js, Node.js, Express.js, MongoDB, JavaScript
- Developed a full-stack web-based attendance management system using the MERN stack.
- Built React.js interfaces for managing student information and attendance records.
- Developed backend services using Node.js and Express.js and used MongoDB for persistent data storage.

EduPath – Career Guidance Web Application | [Add Exact Technologies Used]
- Developed a career guidance web application designed to help students explore career options and suitable learning paths.
- Created a user-friendly interface for presenting career-related information and guidance.
- Applied web development concepts to build an accessible and interactive platform for students.

Computer Vision & Image Processing Projects | Python, OpenCV, NumPy
- Implemented spatial filtering, convolution, and edge detection using Sobel, Prewitt, and Laplacian operators.
- Applied histogram equalization and CLAHE techniques for image enhancement and contrast improvement.

CERTIFICATIONS

- NPTEL Certification – Business Analytics and Data Mining Modeling using R

NPTEL | *Completed*

- Certification-A2 Preliminary English Test (PET)– Cambridge.

ACHIEVEMENTS & CODING PROFILES

- Codechef: satyajeet48

- LeetCode : Satyajeet45
